ABOUT US

The Behavioural Health Foundation (BHF) is a Therapeutic Community providing long-term bed-based treatment for adults and family units experiencing issues related to substance use and co-occurring mental health concerns. Programming includes individual and group counselling and focuses on wholistic person centered wellness. Adult education, employment development and life skills are key components of supporting residents to move to healthier coping and life choices.

BHF is one of the few programs where adults can enter with their children or reunify with children not in their care while they are in the program. With dedicated childcare and K-6 education on site, the program offers healing opportunities for the whole family. The Indigenous Services at BHF offer Traditional Teachings and Ceremonies to residents and community members. Traditional healing in a trauma informed environment has strengthened many members' success in changing their lives. The Outreach team supports members working to maintain healthy choices as they transition back into their communities.
